

Jay Bhatti, Evan Malone and Jake Zim

Wednesday, July 2, 2008: Spock.com's Jay Bhatti, Evan Malone of Fab@Home and Safran Digital's Jake Zim, plus calls, instant messages and emails about pop culture, the day's news and a smattering of technology...it's The David Lawrence Show for a Wednesday.

Previously: [David Lawrence's Personal Netcast - 7/1/2008 >>](#)

Next: [David Lawrence Unplugged for 7/2/2008: the premium podcast feed of The David Lawrence Show >>](#)

Tonight's notes: (?)

Play

7pm PT:

Jay Bhatti, head of [Spock.com](#), joins us live to talk about his social network, and the social network phenomenon in general, and how people are changing the way the communicate, at least for the moment, to take advantage of the integration that these networks offer our lives.

Get MP3

8pm PT:

Evan Malone, physicist and purveyor of [Fab@Home](#), joins us live from Ithaca, New York to look at his work in creating a machine that can create other machines. Not just prototypes, but working products, built with fabrication techniques used every day. His goal? A robot that walks out of the fabrication equipment.

David's latest acting work/annearances

9pm PT:

Jake Zim, COO of [Safran Digital Group](#), joins us live in studio to look at the current tension between the Screen Actor's Guild and the AMPTP, representing the major producers in Hollywood. Jake has seen all sides of the new media production space, having been an integral part of FOX Atomic.
